

SOFT SKILL TRAINING AND TEAM BUILDING SESSION

Title: Soft Skill Training and Team Building Session

Date of Session: 6th April 2024

Organisers: IEEE SB JECC

Duration: 1 hour

Speaker: JITHIN K JOSE

Objective:

The objective of the session was to provide participants with a comprehensive understanding of soft skills' significance in the workplace and effective team building methodologies.

Attendees:

The session was attended by previous year and the successive IEEE EXECOM members

True Copy Attested

Dr. JOSE P THERATTIL

Summary:

The session commenced with a brief exploration of soft skills, elucidating their pivotal role in professional environments. Emphasis was placed on key soft skills such as communication, leadership, teamwork, problem-solving, time management, and emotional intelligence.

A thorough discussion ensued regarding various soft skill training programs, highlighting their transformative impact on individual and organizational efficacy. Additionally, the session delved into the criticality of proficient team building strategies in realizing organizational objectives, accompanied by a range of illustrative team-building activities.

The speaker elucidated specific soft skills, including effective communication, leadership development, emotional intelligence cultivation, problem-solving techniques, time management proficiency, and productivity enhancement methods. Practical insights and real-world examples were provided to facilitate seamless application of these skills within participants' professional realms.

Actionable Insights:

1. Encourage participants to integrate acquired knowledge and skills into their daily professional endeavors.
2. Explore avenues for ongoing soft skill development through supplementary resources and training opportunities.
3. Solicit feedback from participants to gauge the session's impact and identify areas for future enhancement.

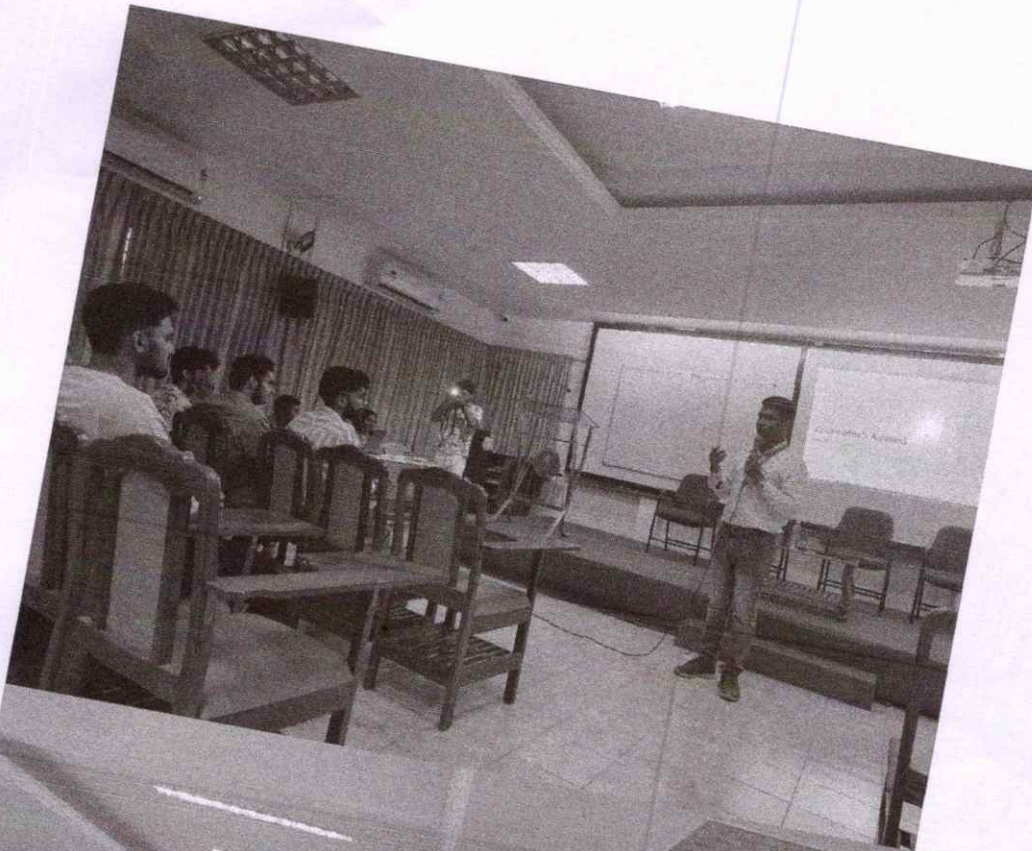

Conclusion:

The session on soft skill training and team building was marked by informative discourse and actionable insights, empowering participants with a robust toolkit for professional advancement. We anticipate leveraging these learnings to foster a culture of excellence and continuous improvement within our organizational framework.

Report on Workshop: Empowering Innovation: A Design Thinking Journey

Date: 1/3/2024 and 2/3/2024

Venue: IICC, Jyothi Engineering College

The two-day workshop on "Empowering Innovation: A Design Thinking Journey" organized by the Computer Science association CESA in association with CSI Chapter Jyothi Engineering College was successfully conducted on March 1st and 2nd, 2024. The workshop aimed to introduce 2nd-year Computer Science students to the principles and methodologies of design thinking, fostering creativity, empathy, and collaborative problem-solving skills.

Objectives: The primary objectives of the workshop were to:

1. Introduce students to the principles of design thinking.
2. Equip students with skills necessary for tackling complex problems creatively.
3. Foster empathy and understanding of user needs.
4. Provide hands-on experience in ideation, prototyping, and user testing.

Workshop Overview: The workshop spanned two days, with each day consisting of interactive sessions and practical exercises. The agenda included sessions on empathizing with users, defining problem statements, ideation techniques, prototyping basics, user testing, and pitch preparation.

Day 1 Highlights:

Introduction to Design Thinking: Participants were provided with a brief overview of design thinking principles and its importance in problem-solving.

Empathize with Users: Activities and exercises were conducted to develop empathy for end-users, focusing on understanding their needs and challenges.

Define Problem Statements: Techniques were taught to distill insights gathered from empathy exercises into clear problem statements.

Storyboarding: Participants learned the art of visualizing user experiences through storyboarding.

Team Formation: Teams were formed, and problem statements were selected for further exploration.

*NBA reaccredited 8Tech Programmes in Civil Engineering, Computer Science and Engineering, Electronics and Communication Engineering, Electrical and Electronics Engineering and Mechanical Engineering valid till 2025

Day 2 Highlights:

Ideation Techniques: Creative brainstorming sessions were held to generate diverse ideas for addressing the chosen problem statements.

Prototyping Basics: Participants were introduced to prototyping methods and materials, emphasizing quick and low-fidelity prototyping.

Prototyping Workshop: Hands-on sessions allowed teams to create prototypes of their solutions using readily available materials.

User Testing: Strategies for gathering feedback through user testing and iterative refinement of prototypes were discussed.

Pitch Preparation: Guidance on effectively communicating and presenting ideas to an audience was provided.

Closing Session:

The workshop concluded with each team presenting their problem statement, solution concept, and prototype to the rest of the participants. Constructive feedback was provided, encouraging reflection and improvement.

Key Takeaways:

- Participants gained a deep understanding of the design thinking process and its applicability to real-world challenges.
- Enhanced empathy and problem-solving skills were observed among the participants.
- Proficiency in ideation, prototyping, and user testing techniques was developed.
- Collaboration and teamwork experience was fostered throughout the workshop.

The "Empowering Innovation: A Design Thinking Journey" workshop proved to be a valuable learning experience for the participants, empowering them with essential skills for addressing complex challenges creatively. It is hoped that the knowledge gained will inspire future innovation and contribute to the growth of the participants both personally and professionally. Photographs and poster of the program are attached.

SOFT SKILL TRAINING

29th February 2024

In order to improve the employability skills of students Association of Electrical and Electronics Engineers conducted a one day training program for second year students in association with Placement Cell. Training was given to all the second year students. Mr. Jithin K. Jose , Assistant Professor of EEE was the trainer for the program.

The training was started a small inaugural ceremony at 9.30 am on 29th February 2024 in the Decennial Hall. AEEE staff coordinator Dr. Shijoh V. had given the welcome speech and Head of the Department Dr. Jenson Jose inaugurated the session. A total of 44 students were participated in the training program. The training mainly focussed on improving communication skill, Individual and Team work, Planning and execution of small projects. And also small games for improving the stage fear while attending interviews.

All the students were really enjoyed the sessions and in the feedback session, they requested such sessions in future also. The session was winded up at 4.00pm with the vote of thanks by Mr. Abhinav K.

PLACEMENT CODING TRAINING REPORT

S6 CSE A and B 2021-25 Batch

The Computer Science Department of Jyothi Engineering College organized a -10 day "APTITUDE AND CODING TRAINING PROGRAM" in offline mode for the students of Semester - 6, CSE-A and B on 05-2-24 to 21-02-24 9am to 4pm. Prof. Mathew Kurian, Jayadev, and Shini of Manifold Institute of Technical Education, Thrissur conducted the training. Details are attached in the section.

On the first day, the trainer focused on aptitude and shared informations posted in their Whatsapp group where he could share every link and websites for references related to aptitude and coding. This method made the students very helpful as they received every information right at their finger tip. Since the training is a continuation from previous seven day training program, trainer starting with explaining about placements, the basic criterions for placements and coding level needed for placement. He then started the continuation of Python programming simultaneously working with application problems which were asked in several companies like TCS, Wipro, etc. for placements.

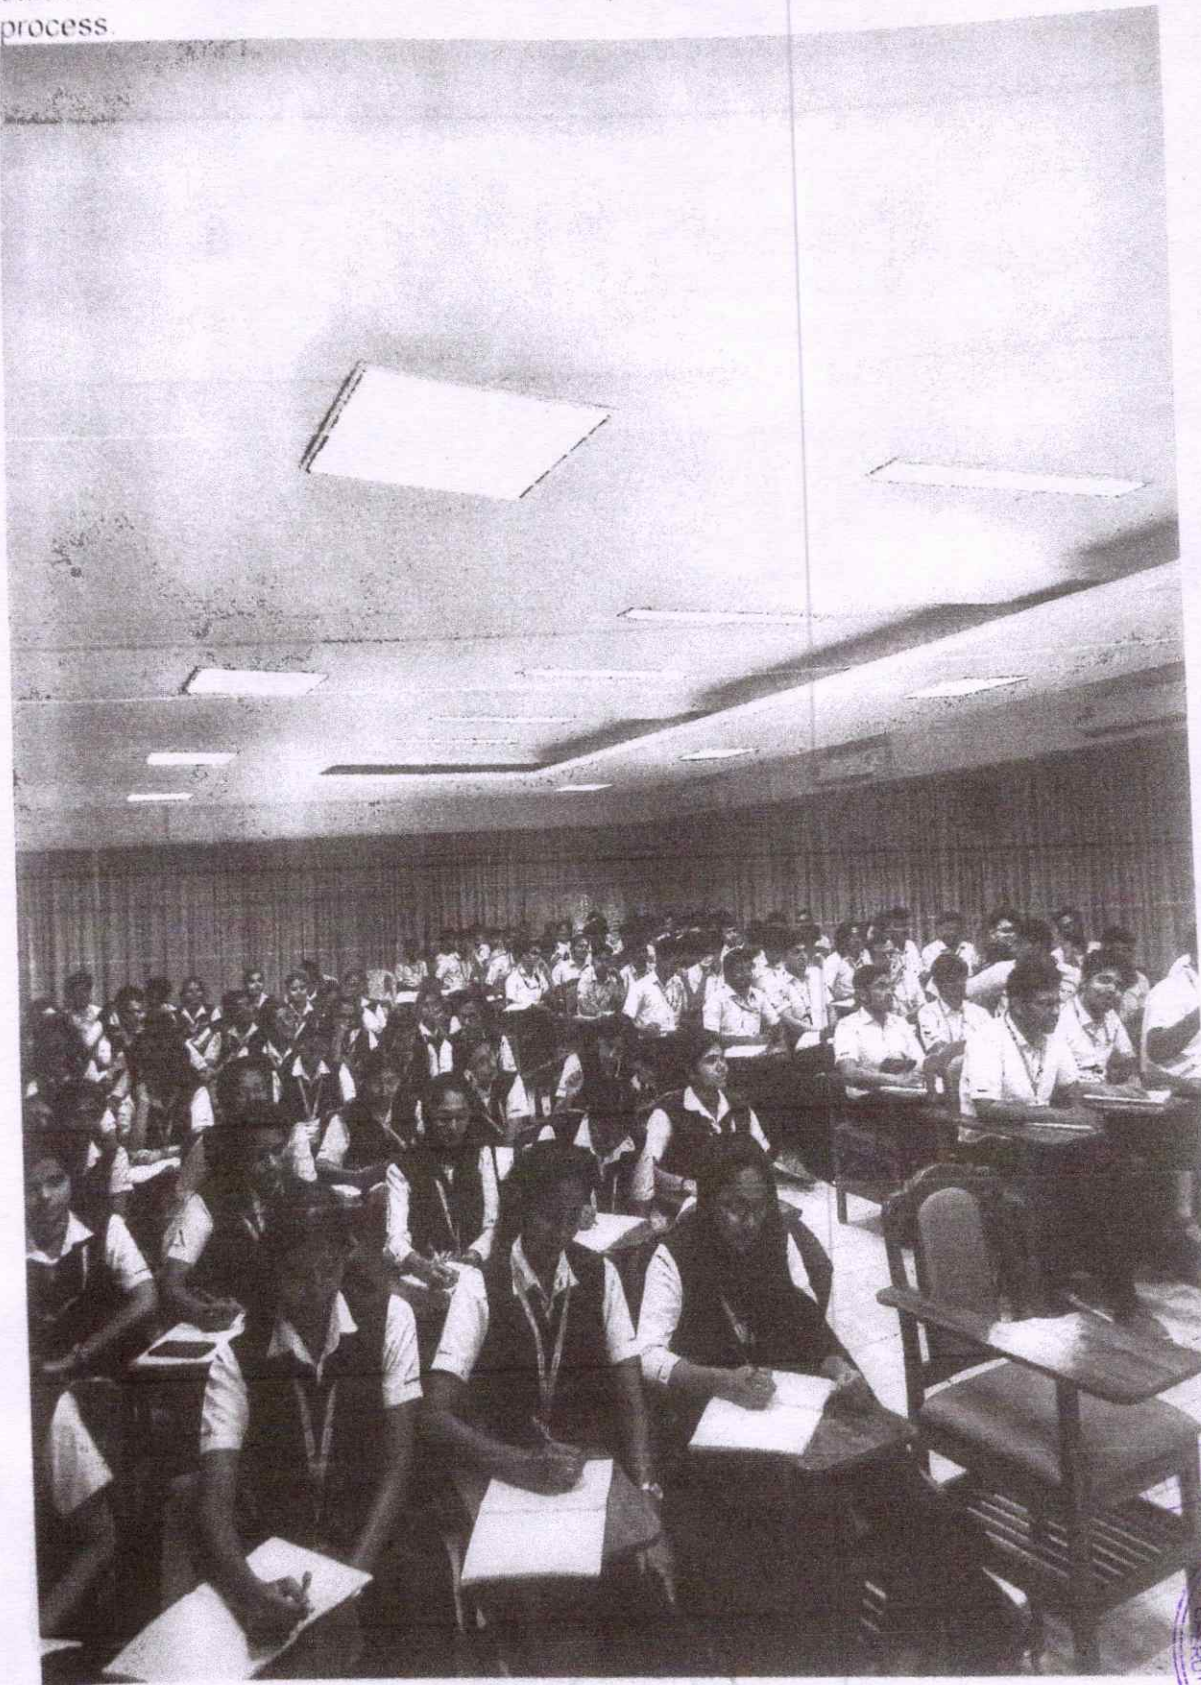

Later, on the coming days, the level and depth of the Python programming gradually increased. This slow paced method of teaching made the students understand each problem and logic. The trainer created around 20-30 set of problems of different levels and areas of subjects like- mathematical series, creation of patterns, logical statements, bug fixing etc. This made the students a clear cut idea of how python is applied and logically solved.

On the last day, he shared the placement status of other colleges and motivate the students. He shared the placement strategies of various companies and he made a recall of all the concepts and logic. The training was really effective for students as the trainer shared a lot of experiences about placement recruitment process.

Dear Sir,

The department of Artificial Intelligence and Data Science in association with the Placement and Training department is planning to conduct a Soft Skills development session for S4 AD students on February 5th and 6th, 2024. Would you be available on these dates to facilitate the session? Your positive response is anticipated.

The proposed venue : ECE Seminar Hall**Date: 05,06 Feb 2024**

Thanking you,

Jithin Jose <jithinkjose@jecc.ac.in>

DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND DATA SCIENCE

Skill Development Program Report

Organized by: Artificial Intelligence and Data Science

Venue: ECE seminar hall, Jyothi Engineering College

Dates: February 5th and 6th, 2024

Topic: Soft Skills Development Session

Experts: Jithin K. Jose, Assistant Professor, Dept. of Electrical & Electronics Engineering Jyothi Engineering College

Participants: The Third year students of AD department

Staff Coordinators: Shine P Xavier

Student Coordinators: Sneha Paul

SUMMARY

Soft skills are critical for professional success, complementing technical expertise by enabling effective communication, leadership, and organizational abilities. To help students prepare for the demands of modern workplaces, the Department of Artificial Intelligence and Data Science, in collaboration with the Placement and Training Department, conducted a two-day Skill Development Program on February 5th and 6th, 2024, at the ECE Seminar Hall.

The program focused on enhancing key skills such as goal setting, time management, leadership, and resume building. Through interactive sessions and hands-on activities, the program aimed to equip students with the competencies required to excel in both academic and professional environments.

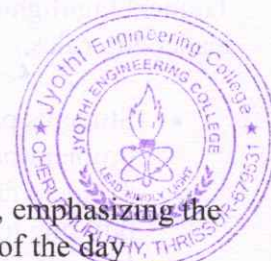

Day 1: Laying the Foundation for Personal Growth

The first day of the program began with an introduction by the coordinators, emphasizing the importance of soft skills in achieving professional excellence. The sessions of the day focused on goal setting and time management, two foundational skills critical for personal and career success.

Morning Session: Goal Setting

The trainers explained the significance of setting clear, measurable, and achievable goals. Using the SMART framework (Specific, Measurable, Achievable, Relevant, Time-bound), students were guided on how to define their short-term and long-term objectives.

DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND DATA SCIENCE

- Interactive exercises encouraged participants to reflect on their personal aspirations and professional ambitions.
- By the end of the session, students created personalized goal-setting plans, which they could implement and track.

Afternoon Session: Time Management

The second session of the day addressed the importance of managing time effectively to balance academic, personal, and extracurricular commitments.

- Trainers introduced popular time management techniques such as prioritization (using the Eisenhower Matrix) and scheduling.
- Participants practiced creating weekly schedules and learned strategies to minimize procrastination and distractions.
- Role-playing scenarios helped students identify and address common time-wasting behaviors.

By the end of the first day, students had a clear understanding of how to align their goals with actionable time management plans, ensuring a path to sustained productivity.

Day 2: Preparing for Leadership and Professional Readiness

The second day of the program shifted focus to leadership skills and professional preparation, essential for career success in competitive environments.

Morning Session: Leadership Skills

The day began with an engaging session on the traits and responsibilities of effective leaders. Trainers highlighted the importance of empathy, decision-making, and communication in leadership roles.

- Students participated in group activities where they took turns leading teams to solve problem-based tasks, simulating workplace scenarios.
- Trainers facilitated discussions on conflict resolution, motivating team members, and building trust within a group.
- Inspirational stories of renowned leaders in technology and business were shared, inspiring students to develop their leadership potential.

Afternoon Session: Resume Making

The final session of the program was dedicated to creating impactful resumes. Trainers explained the elements of an effective resume, such as clarity, conciseness, and relevance.

- Students learned how to structure their resumes to highlight skills, achievements, and experiences tailored to their career aspirations.

*NBA accredited B.Tech Programmes in Civil Engineering, Computer Science and Engineering, Electronics and Communication Engineering, Electrical and Electronics Engineering and Mechanical Engineering valid till 2025. Mechatronics Engineering valid till 2026

DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND DATA SCIENCE

- The trainers conducted hands-on workshops where participants created or revised their resumes with real-time feedback.
- Common mistakes in resume writing were discussed, and students were given examples of industry-standard formats.

The session concluded with tips on tailoring resumes for different job roles and aligning them with specific job descriptions.

The Skill Development Program had a transformative impact on the participants, who gained valuable insights into managing their personal and professional lives.

- **Goal Setting and Time Management:** Students reported improved clarity about their ambitions and learned practical strategies to achieve them.
- **Leadership Skills:** Participants demonstrated enhanced confidence in taking on leadership roles and working collaboratively in teams.
- **Resume Making:** Students left the session with polished resumes and the knowledge to tailor them for future opportunities.

Feedback collected from the students was overwhelmingly positive. They appreciated the practical approach of the sessions and the engaging activities that made learning enjoyable. Many expressed that the program boosted their self-confidence and preparedness for upcoming challenges.

Conclusion

The Soft Skills Development Session was a vital initiative aimed at preparing S4 AI & DS students for personal and professional success. Through practical exercises and interactive discussions, the program effectively equipped students with essential skills such as goal setting, time management, leadership, and resume building.

The collaboration between the AI & DS and Placement and Training departments played a significant role in ensuring the program's success. With these newly acquired skills, students are now better positioned to excel in academic pursuits, internships, and their future careers.

Report on the Pre placement talk : "Empowering Success"

S4 CSE A & B batches

Date: 31/1/2024 & 1/2/2024

Venue : Decennial Hall

A pre-placement talk session, "Empowering Success" was organised by Mr. Jithin K. Jose, Assistant Professor, EEE Department, JECC for S4 CSE A & B batches on 31/1/2024 & 1/2/2024 at Decennial Hall. The event aimed to equip the students with essential skills to achieve personal and professional success, focusing on goal setting, time management, leadership development, and effective resume building. The session was well organised that it covered -

1. Setting SMART Goals
2. Time Management Strategies
3. Leadership Skills for Emerging Leaders
4. Crafting a Winning Resume
5. Industry Experts' Insights

120 participants attended the event, representing diverse industries and educational backgrounds. Interactive workshops and engaging discussions facilitated knowledge sharing and networking. The speaker shared practical tips, real-life examples, and inspiring stories. The students received comprehensive resource materials and worksheets.

Key Takeaways:

1. Goal Setting:

- Importance of SMART goals (Specific, Measurable, Achievable, Relevant, Time-bound)
- Creating a vision board for clarity and focus

2. Time Management:

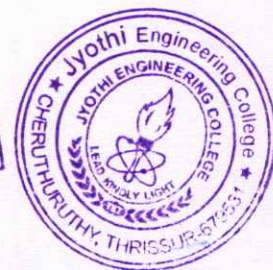

- Prioritizing tasks using the Eisenhower Matrix
- Effective scheduling and avoiding procrastination

3. Leadership Skills:

- Identifying strengths and weaknesses
- Building confidence and emotional intelligence

4. Resume Building:

- Tailoring resumes to job descriptions
- Highlighting transferable skills and achievements

The event's impact was evident in the participants' enthusiastic feedback, with many expressing gratitude for the valuable insights and practical tools gained. The organizers' meticulous planning and attention to detail ensured a seamless and engaging experience. Additionally, the event's focus on holistic development resonated deeply with attendees, who appreciated the emphasis on balancing personal and professional growth. By providing a supportive ecosystem, the event aims to empower individuals to achieve their goals and make a lasting impact in their communities.

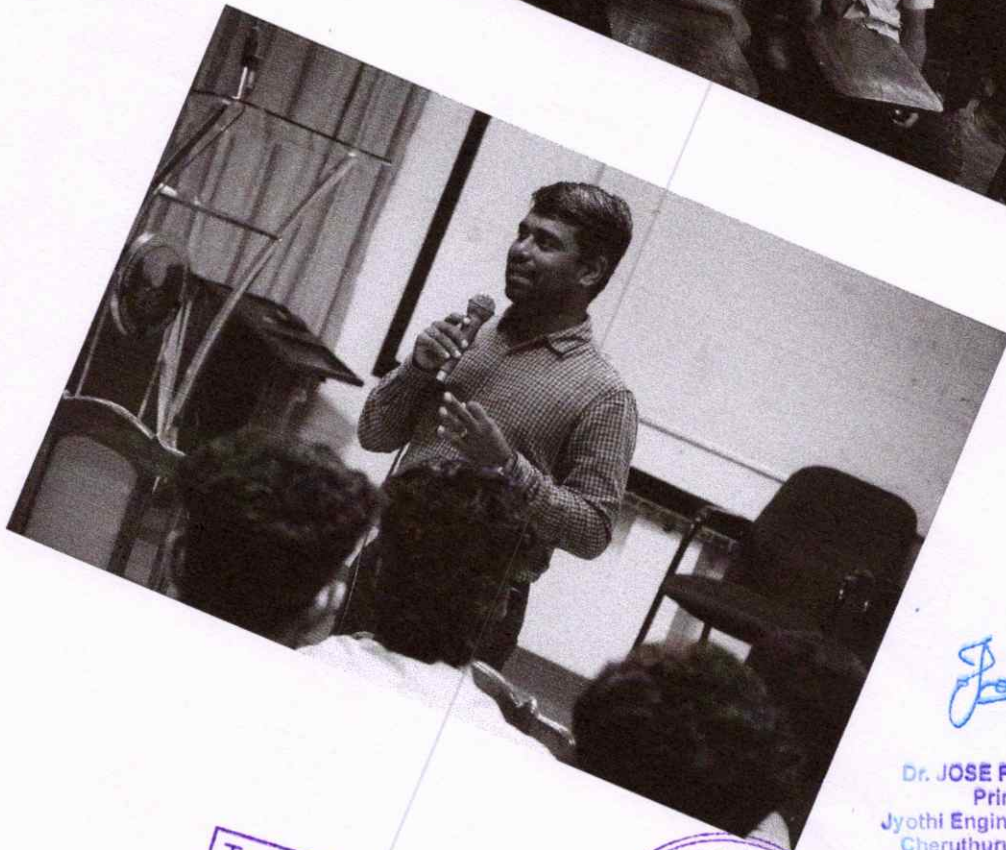

The event successfully empowered participants with essential skills to achieve personal and professional success. The event's interactive format and practical takeaways made it an invaluable experience.

Introduction:

The GATE (Graduate Aptitude Test in Engineering) Awareness Session hosted by ONES Coaching Center on November 1, 2023, was a significant event for 3rd and 4th-year Electronics and Communication (EC) students. The session aimed to provide crucial insights into the GATE examination, equipping students with valuable information for their academic and professional journey.

Overview:

ONES Coaching Center initiated the session with a warm welcome, emphasizing the importance of GATE in shaping our academic and career trajectory. The overview covered the structure of the GATE exam, the syllabus specific to EC, and the diverse benefits associated with achieving success in GATE. The coaching center demonstrated a commendable focus on tailoring information to the needs of EC students.

Key discussions included an in-depth exploration of the GATE exam format, the weightage of different sections, and practical strategies for effective preparation. Real-world success stories from past GATE qualifiers added a motivational touch, inspiring students to recognize the vast opportunities that GATE unlocks in the field of electronics and communication engineering.

profound appreciation for the myriad opportunities awaiting aspiring electronics and communication engineers.

An interactive Q&A session provided an opportunity for active student engagement. This allowed us to seek clarification on doubts and gain personalized insights into the GATE preparation process. The positive energy and enthusiasm exhibited by students throughout the session indicated a heightened awareness of the opportunities presented by GATE.

Conclusion:

The GATE Awareness Session on November 1, 2023, was a resounding success, effectively achieving its goal of creating awareness and motivation among 3rd and 4th-year EC students. ONES Coaching Center's commitment to providing tailored information, practical strategies, and real-world perspectives was evident in the positive feedback received from both students and faculty members.

COMPUTER ENGINEERING STUDENTS ASSOCIATION (CESA) INAUGURATION REPORT

The inaugural function of CESA for the year (2022-2023) was organized on 26th October 2023, Thursday. Dr. Saju P. John, HOD of CS Department delivered a Welcome Speech. Dr. Jose P. Therattil, Principal, JECC presided over the function. Msgr. Thomas Kakkassery, Executive Manager, JECC inaugurated the function.

The esteemed Chief Guest, Mr. Edison Franz, a renowned motivational speaker, delivered an engaging discourse on life experiences that profoundly inspired the audience. His comprehensive address encompassed various aspects including personality development, communication, body language, presentation skills, and techniques for performance enhancement.

Office bearers for the year 2023-2024:

Chairman	: Athul Jestin
Vice Chairman	: Ummu Habiba
Secretary	: Sanjon Rion
Treasurer	: Anusha Joseph
Staff Advisor	: Vysagh M

All students in the third semester were formally invited to join the organization. They were welcomed into the association by an induction ceremony.

Various students and teams who excelled in different competitions were appreciated and awarded by the Chief Guest.

The event ended with a vote of thanks by the Chairman Athul Jestin.

Placement Orientation Programme

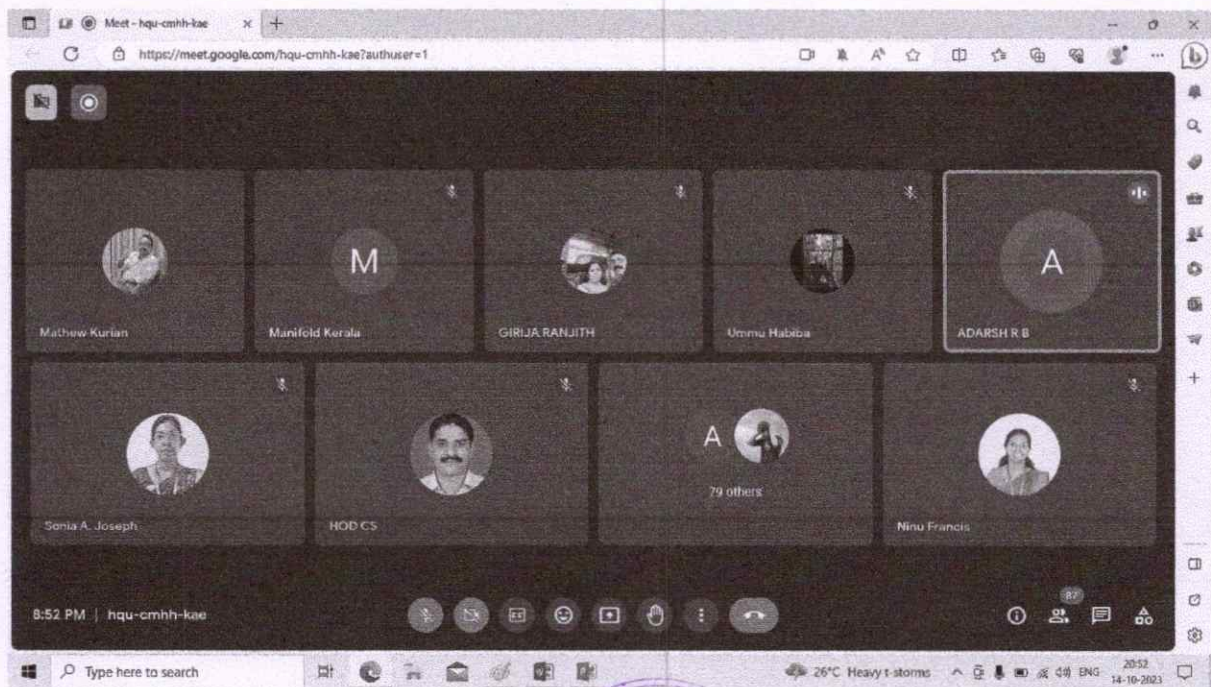

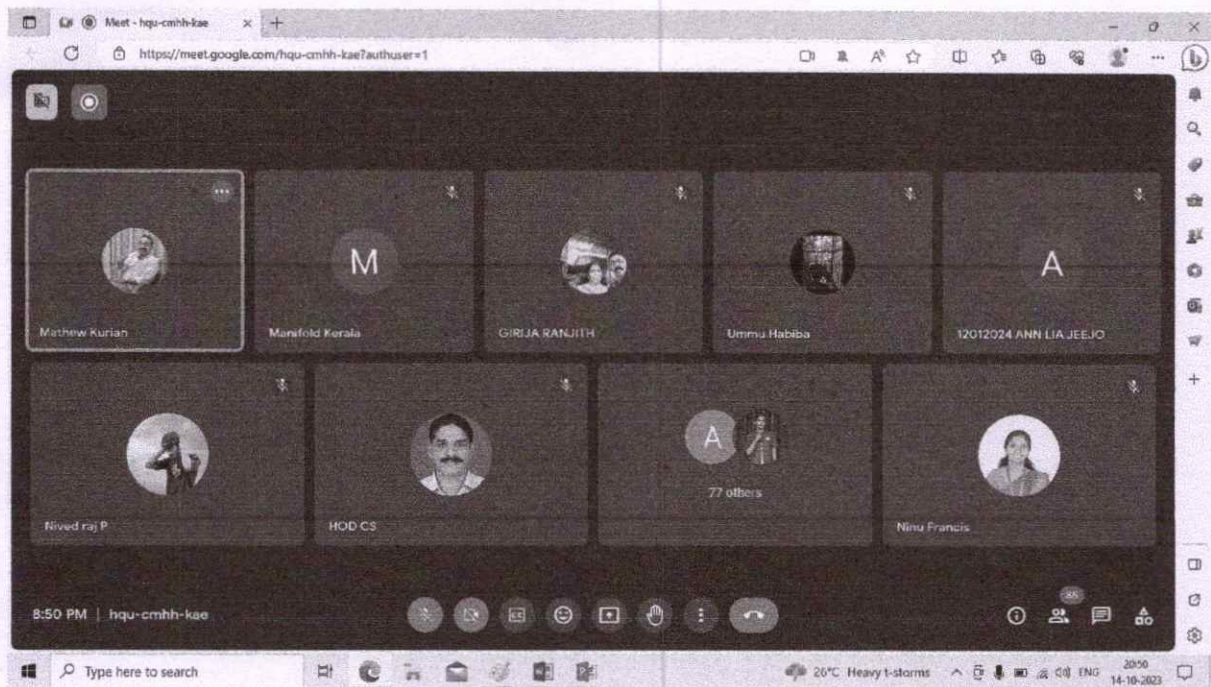

An online Placement Orientation Programme for S7 Computer Science students in association with IE(I) Student Chapter of CSE Department was held on 14th October 2023 at 8.30 PM. Mr. Mathew Kurian from Manifold Institute of Technical Education led the session. Around 80 participants including the students and parents attended the meeting using the link <https://tinyurl.com/y2cwreu2>.

HOD , Dr. Saju P John started the meeting and extended warm welcome to all. He introduced Prof. Mathew Kurian to the parents. He explained the current placement status of 2020-2024 CSE batch. He also explained about the current placement scenario. The IT sector is likely to cut down its hiring by 20 percent by next year. This slash in hiring is expected to majorly impact Campus placements 2023 and 2024.

Firstly, high competition in off-campus placements and the second is the recession due to economic and business fluctuations in a global scenario, which obviously decreases the campus placements. Few students from other colleges like Muthoot and Christ college had shared their interview experience. They told our students that we need the basic knowledge from subjects like Operating Systems, Database Management Systems, Computer Networks and also Programming concepts in C, Python and OOPS. They said that after an aptitude test, we should identify our weaker areas and need to enrich it. Mathews Sir asked our students Adarsh R B & Mohammed Ajmal to share their experience about their TCS interview. They also shared their placement experience. The meeting was concluded with the vote of thanks proposed by Ummu Habiba.

A Report on Career Guidance for CSE Students

On September 30, 2023, a career guidance session "Career Blueprint" for S3 CSE students was hosted under the NDLI Club in association with IE(I) Student Chapter of CSE department at the decennial hall. The session was started at 1.30 pm and it was led by Sneha C Shaji, S7 CSE B student.

The session began with a discussion on the importance of skills over degrees. Sneha emphasized that while a degree can help you earn respect and social reputation, it is your skills that will help you achieve your goals. She also highlighted the fact that not all degree holders are necessarily skilled. Next, Sneha talked about the different types of placements available to CSE students: off-campus and on-campus. She explained that off-campus

placements require students to apply for jobs on their own, while on-campus placements are offered by companies that come to the college to recruit students.

Sneha then shared some tips on how to find the right job. She emphasized the importance of knowing your interests and skills, building a strong public profile, networking, researching different job industries, and preparing for interviews. She also discussed the importance of soft skills and technical skills for CSE students. Soft skills such as communication, teamwork, and problem-solving are essential for success in any job, while technical skills such as coding, data analysis, and testing are essential for CSE careers.

Sneha then talked about how to build skills through self-learning. She suggested using resources such as YouTube, Udemy, FreeCodeCamp, Coursera, LinkedIn Learning, edX, and Codecademy. She also discussed how to make sure your profile matches the checklist for a successful job search. This includes having a strong resume, LinkedIn profile, and GitHub portfolio. She also suggested practicing your skills on websites like HackerRank.com.

Finally, Sneha talked about how to build connections and research job industries. She suggested using social media, alumni events, public speaking events, and professional conferences and seminars to network with people in the industry. She also recommended using Glassdoor to research companies before applying for jobs. She also made learning circles in specific domains among us with separate leads on different domains.

Overall, all the students found the career guidance session to be very informative and helpful. Sneha provided valuable insights into the importance of skills over degrees, the different types of placements available to CSE students, and how to find the right job. Her tips on building skills through self-learning, making sure your profile matches the checklist, and building connections were particularly helpful.

Venue: Hall No.415

As a part of first year orientation programme Mr. Dileep K Gopal, Alumini (COO,CHISQUARE LABS) conducted an interactive session.

He motivated the students and guided them how to choose a career in this new era. He also adviced students to study regularly, break the fear etc. He stressed to increase the confidence level and to improve skills by joining software training centres. He explained the need to develop technical and communicative skill for an interview.

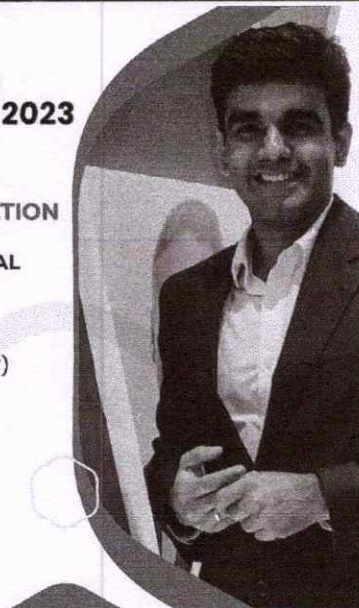

FIRST YEAR ORIENTATION PROGRAMME 2023

FIRST YEAR ORIENTATION PROGRAMME REPORT 2023-2024

Date: 07/09/2023

Venue: EAB 415 & 416

As a part of first year orientation programme Mr. Nikhil Chandran (CEO, TILT LABS AND TILTEDU) conducted a training session on the topic "GETTING YOUR CAREER STARTED IN XR TECHNOLOGY AND GAMING".

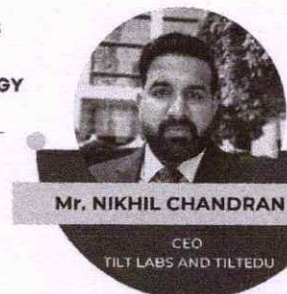

They operate in three divisions namely XR & Mobility, Games & Gamification, and Virtual Production. Recently they have started their NFT studio to help in developing NFT games & asset creation. It was an interactive session which made students realize the importance of establishing a good startup. The expert had a discussion about various ideas. The expert describes it as the engine of economic growth, Source i of new jobs, new products and new services.

According to him initiating something different is definitely riskier than established business, but they have to generate more wealth and prosperity to a country. The world around us is revolutionizing day by day due to emerging innovational ideas.

PLACEMENT CODING TRAINING REPORT

S6 CSE A

The Computer Science Department of Jyothi Engineering College organized a 7-day "PLACEMENT CODING TRAINING PROGRAM" in offline mode for the students of Semester - 6, CSE-A on 09-05-2023 to 17-05-2023, 9.00 AM to 4.00 PM.

Prof. Mathew Kurian of Manifold Institute of Technical Education, Thrissur conducted the training. The trainer starting with explaining about placements, the basic criterions for placements and coding level needed for placement. He then started with basics of Python programming simultaneously working with application problems which were asked in several companies like TCS, Wipro, etc. for placements.

On the first day itself, the trainer shared a Whatsapp group link where he could share every link and websites for references related to Placements and coding. This method made the students very helpful as they received every information right at their finger tip. Later, on the coming days, the level and depth of the Python programming gradually increased. This slow paced method of teaching made the students understand each problem and logic.

The trainer created around 30-50 set of problems of different levels and areas of subjects like- mathematical series, creation of patterns, logical statements, etc. This made the students a clear cut idea of how python is applied and logically solved.

On the last 2 days, he occupied students with advanced application problems and made us recall all the concepts and logic. As he had shared the set of problems through Whatsapp, the students could access it later for practise.

Dr. JOSE P THERATTIL
Principal
Jyothi Engineering College
Cheruthuruthy - 679531

The training was really effective for students as the trainer shared a lot of experiences about placement recruitment process. He would walk around to check if any student is facing any problem during coding and correct it. Students were really excited to be part of this program as they understood the importance of this coding language in their future domain.

The Principal

JECC

Sir,

Institute of Engineers (India), Student Chapter of CSE Department would like to host an orientation session for cracking GATE 2024 for all final year students on 14th August, 2023 at decennial hall. The session will be according to the schedule given below.

CSE & EEE Students – 9.15 am – 10.45 am

AD & EC Students – 11.00 am -12.30 pm

ME, CE, MR & RA Students – 2.00 pm – 3.30 pm

Kindly give permission for the same.

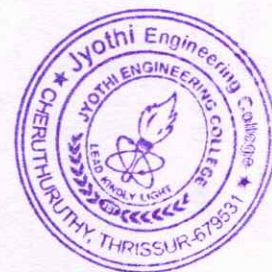

Thanking You.

Yours Sincerely,

Ninu Francis

Jointly Organized by Computer Science & Engineering Department & Institute of
Engineers (India), student chapter of CSE, JECC

The Computer Science Department of Jyothi Engineering College in association with Institute of Engineers (India), student chapter of CSE organized a session on "**How to crack GATE 2024** " in the decennial hall on **14th August, 2023** for all the final year students of all branches. The key resource persons were from Manifold Institute of Technical Education, Thrissur. Ms. Mathew Kurian and Mr. Deepak led the sessions. The whole program was held as two independent sessions. A total of 167 students had attended the same.

First session was handled for the CSE, AD, ECE and EEE students. It was started with a silent prayer. Hod, Dr. Saju P John extended welcome to all. Fr. Jose Kannampuzha insisted the students about the importance of cracking GATE exams. He also asked the students to work hard and improve the technical knowledge. 97 students had attended the first session. The session was fruitful to the students and they had raised queries regarding the learning strategy and the preparations.

About 70 students from CE, ME, MR and RA had attended the second session. It was engaged by Mr. Deepak which focussed on how to get a clear understanding of the gate exam pattern & syllabus, to pick out the right study resources and prepare a study plan, to complete the syllabus with a smart study approach, to do revise the entire syllabus effectively and efficiently and to solve previous years' gate papers and attempt mock tests. He also discussed the following quick Tips to Crack the GATE Exam.

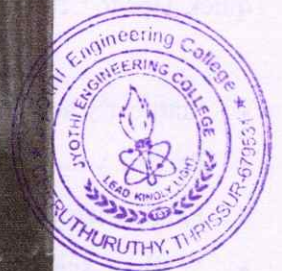

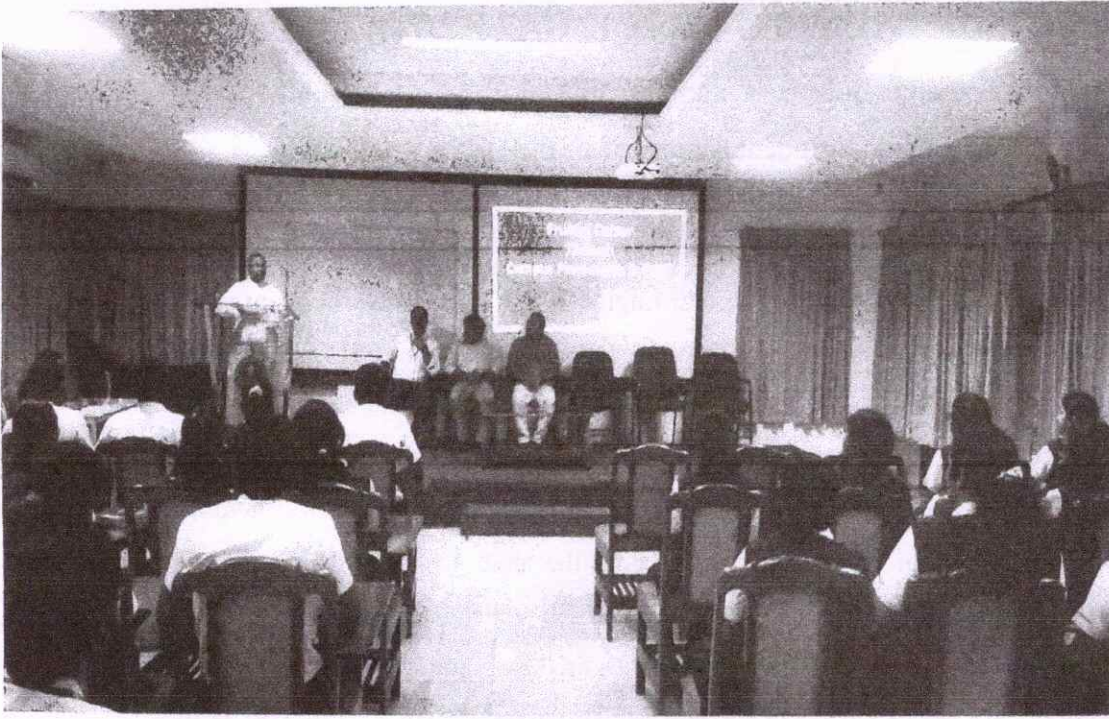

- Start early and don't rely on last-minute preparations.
- Prepare your own notes.
- Familiarize yourself with the GATE Virtual Calculator.
- Work on speed and efficiency as per the GATE exam format.
- Keep your mind calm & healthy.

Report of the event

In a moment of reflection and celebration, the Innovation and Entrepreneurship Development Cell (IEDC) Execom 22-23 bid farewell to its members in a poignant ceremony. The event, held to honor the outgoing executive committee and distribute certificates acknowledging their contributions, was a symbolic gesture to recognize the dedication and hard work of the team throughout the academic year.
