The tuition fees quoted in this Offer are indicative only and are based on published fees for the calendar year in which this Offer is issued (which may be different from the published fees applicable for the year in which your course commences). For Degree by Research **courses**, tuition fees are calculated based on timed value which equates to one Equivalent Full Time Study Load (1 EFTSL) per year. To find out more about your course structure and fees please visit the [Curtin Handbook and Fees](#).

Tuition fees are reviewed annually and are subject to change. This may, or may not, result in an increase in tuition fees. Unless there is a significant restructure to the course content, any fee increase will not normally exceed 5% per annum and will apply at the beginning of each calendar year. The tuition fees you pay in future years will be those that are published for the corresponding calendar year and may not be the same as the indicative first year tuition fees listed in this Offer.

The indicative total tuition fees quoted in this Offer, are based on the total number of course credit points as per the course structure in the Curtin Handbook, and are current at the time of issuing your Offer. The indicative total tuition fees do not include any potential annual tuition fee increases since it is not possible to predict what those increases would be at the date of this Offer. If there are increases, then the actual total tuition fees will be higher than the indicative total tuition fees quoted in this Offer.

Each unit that you enrol in within your Course has a Census Date after which you will become financially liable for the unit. If you withdraw from a unit after the Census Date you must still pay for the unit. To find out about the Census Date for each study period, please visit the Academic Calendar.

Students and sponsors must not overpay the tuition fees and/or related charges and costs to the University in order to obtain their living costs or circumvent any government regulation or restriction. The University is not able to act as a clearance account, and must abide by Australian anti-money laundering laws. Excess payment amounts will be refunded to the original payee, or retained as credit for future tuition fees. Curtin University is not liable for any loss due to, but not limited to, bank charges or fluctuating exchange rates.

Credit for Recognised Learning (CRL)

If CRL (advanced standing/exemption) is granted, the duration of the course will be reduced. The Confirmation of Enrolment (CoE) that you need for your student visa application is based on the course duration after CRL (included in the Offer Letter).

Overseas Student Health Cover (OSHC)

It is a mandatory requirement that all international students on a student visa must have an active visa length OSHC from the date of their arrival in Australia until the date that their visa expires. If you wish to purchase OSHC cover via Curtin, the University can only accept OSHC payment on behalf of Bupa, our preferred provider.

Note: New students using Bupa as their OSHC provider should register for myBupa at mybupa.com.au or download the mybupa app upon arrival in Perth. You will be able to order your OSHC membership card through myBupa.

Simplified Student Visa Framework (SSVF)

applicants who apply and to ensure that applicants who accept an offer at the University have the financial capacity to pay for their tuition fees, travel and ongoing expenses associated with living in Australia. The level of information required is dependent upon the country in which you are applying and the course level of your application. Before accepting your offer you will need to meet the Genuine Temporary Entrant condition if outlined on your Letter of Offer. Go to the immigration website for more information on [SSVF](#).

You may still need to provide evidence of your English language skills with your visa application, even if you have met the Curtin University English entry requirements.
